

DigiCam Surveillance

IP6112 Networking IP Camera w/ 2-way audio

The IP6112 networking camera allows the user to easily view real time footage via a high speed internet connection or network. It also supports 2-way audio for improved communication. This camera produces a crisp, clear image with MJPEG and MPEG4 compression capabilities. The IP6112 is one of the only IP cameras that support interchangeable lenses. Any of our Vari-focal auto iris lenses will work with this camera enabling it to view the exact space you're looking at.
