## 3101 B/W Sharp 1/3" CCD Weatherproof IR Day/Night Bullet Camera

This weatherproof, outdoor rated camera is packed with all the features you'll need in a compact, infrared camera.

The 3101 is one of the most compact weatherproof cameras that still offers long range infrared performance at a super low price. Great for indoor use as well, this camera is well built and very solid. Equipped with a Sharp™ 1/3" sensor, the 3101 produces a crisp B/W picture at 420TVL by day and then automatically switches to high sensitivity b/w mode for IR night operation in total darkness - 0 Lux. The lens is optimized for IR operation with a fixed focal length of 4.6mm (angle of view = 45 degrees). In addition, the IR LEDS are automatically switched off during daylight hours to promote long life. The camera is housed in a rugged weatherproof enclosure and includes a mounting bracket. The 3101 requires a 12VDC regulated power supply - 500mA.

There is a professional type BNC connector and female power connector that come out of the sealed enclosure. A great super high resolution camera, a great price!

### Camera Comes Complete With:

- Mounting Hardware
- Mounting Screws

### SPECIFICATIONS

<b>Image Sensor</b>	1/3" Sharp B/W CCD
<b>Resolution</b>	420 TV Lines
<b>Minimum Illumination</b>	0 Lux
<b>Lens Furnished</b>	F4.6mm @f2.0
<b>Power Supply</b>	12V DC
<b>Power Consumption</b>	110mA
<b>Electronic Shutter</b>	1/60 (1/50) to 1/100,000 sec.
<b>Auto Gain Control</b>	Yes
<b>S/N ratio:</b>	More than 48dB
<b>Video Output</b>	1.0V @ 75ohm
<b>Scanning System</b>	Interlace 2:1
<b>Water Resistance :</b>	IP66
