

DigiCam Surveillance

7500 Sony 1/3" Super HAD CCD Manual 420 TV Lines Pan/Tilt IR Vari-Focal Armor Dome Camera

This infrared armor dome camera has a variety of great features that put it in a class of its own. The 7500 utilizes a tri-axis enclosure design that allows you to change the direction the camera is facing without taking it apart. The built-in 4-9mm lens provides an adjustable field of view. The lens is adjusted from the exterior of the camera with a unique tool (included) to ensure that you are the only one that can change the focus. Don't forget that the 7500 uses infrared technology allowing it to see up to 45 feet in total darkness!
