

DigiCam Surveillance

7600 Sony 1/3" Super HAD CCD Manual 480 TV Lines Pan/Tilt IR Vari-focal Armor Dome Camera

All the features of the 7500 but with 480 TV lines! The 7600 utilizes a tri-axis enclosure design that allows you to change the direction the camera is facing without taking it apart. The built-in 4-9mm lens provides an adjustable field of view. The lens is adjusted from the exterior of the camera with a unique tool (included) to ensure that you are the only one that can change the focus.

FEATURES

- 1/3" Super HAD sensor with Sony chipset
- 480 TV Lines
- 0.0 LUX W/ IR ON
- Built in 24 IR LEDs
