046 (EG) 4 Channel MPEG 4 DVR W/ CR Writer

Elite Gold Product **Advanced Performance
And Reliability**

This is our most advanced and top of the line 4-channel DVR, with a MPEG-4 compression rate and a recording speed of 120 fps. This unit can hold up to a 750GB hard drive which is stored internally and also comes standard with a built in CD writer. To save room on your hard drive, you are able to set each channel (camera) on motion detection, so it will record only when motion is detected. Being one of our advanced DVRs, this unit is also networkable, so you are able to log on anywhere and view your cameras on line.

FEATURES

- MPEG4: high quality and fast streaming
- Triplex: Recording, Playback and Networking at the same time.
- Real Time Live: 120 frame recording and playback
- Easy to use GUI
